FIRST FIGHT OF THE WAR

Shafter's Men Encounter the Spaniards In Ambush.

THIRTEEN AMERICANS KILLED AND FIFTEEN WOUNDED.

Washington, June 25—Special—The American troops now hold the table lands commanding the city and harbor of Santiago. The advance from Baiquiri was intercepted about five miles from Santiago by a force of 2,000 Spaniards concealed in a thick undergrowth. The Spaniards had much the best of the position and were double the number of the Americans, but the latter made a spirited attack, and after considerable loss drove the enemy from their cover. Fifty Americans were wounded and thirteen killed. Among the latter were Capt. Allyn K. Capron and Sergeant Hamilton Fish, Jr., the latter a grandson of the late secretary of state of the United States. Both were members of Theodore Roosevelt's Rough Riders, and were esteemed as brave men. The Spanish loss was over a hundred in killed and wounded. The American troops behave splendidly. There was no sign of wavering along the line even when the men were falling thickly about, pierced by bullets from an invisible foe whose numbers could only be conjectured.

Washington, June 25—Special—Troops for Santiago are now embarking on transports at Newport News and Tampa. They will be sent to Cuba with all possible dispatch.

Washington, June 25—Special—An official telegram from Shafter was received this morning confirming the reports of yesterday's battle.

Complimented For Bravery

Playa del Este, June 25—Special—Gen. Shafter has personally complimented Roosevelt's Rough Riders and the men of the First and Tenth cavalry for bravery when ambuscaded by a superior force yesterday, resulting in the death of Sergt. Hamilton Fish, Capt. Capron, and fifteen others. The American force was met with a terrible fire from the enemy concealed in the shrubbery, but without hesitation they sprang in the thickets and engaged the Spaniards in a hand-to-hand fight. The Spanish fell before the onslaught and retired toward Santiago. The Rough Riders and cavalry were advance guard of Shafter's army marching to Santiago. The first warning of the enemy's presence came in the shape of a volley, which sent several skirmishers down. A little detachment returned the fire fiercely, and sprang behind trees until the main body came up. They rushed right into the death trap with a cheer, led by Col. Wood and Teddy Roosevelt. Volley after volley they poured into the Spanish lines as they advanced, forcing them out of the thicket where the main battle was fought. After a brief but fierce engagement the Spaniards fled precipitately. When Hamilton Fish fell far in the lead the Spaniards made an attempt to capture his body, but with a rush his companions overwhelmed the Spaniards, killing several and forcing the others to flee. The American soldiers are wild to make the Spaniards pay dearly for their comrades' death, and from now on it will be a steady battle until Santiago capitulates. The number of Spaniards killed is not known, but must be great.

A Spanish Account.

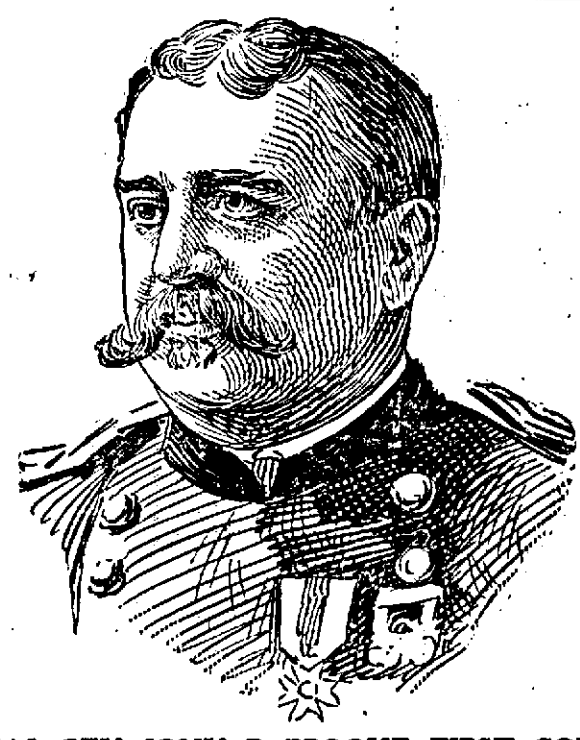

Madrid, June 25—Special—Blanco cables from Havana that three hundred Americans attacked the Spanish outposts near Sevilla and Siboney, a few miles from Santiago. The Spaniards had three killed and three wounded. The Americans also attacked a force of Gen. Rubon, but were repulsed and then pursued by the Spaniards, who captured a quantity of ammunition and other stores. Casselda was bombarded yesterday by the Americans.

Cubans Win a Victory.

Playa del Este, June 25—Special—Gen. Castillo, with two thousand Cubans, is reported as having defeated the Spaniards at Guasima with heavy loss. The Cubans' loss is less than fifty. The insurgents captured two railroad trains laden with food supplies and large quantities of coal. Garcia and his forces will be moved through here as quickly as possible.

The Final Attack.

Washington, June 25—Special—Gen. Miles thinks the final concerted attack upon Santiago began this morning.

MAJ. GEN. JOHN R. BROOKE, FIRST CORPS.

Major General Brooke was born in Pennsylvania, enlisted in the Fourth Pennsylvania regiment in 1861 and was brevetted major general of volunteers in 1866. He was appointed lieutenant colonel U. S. infantry in 1893 and major general in 1897.

KICKERS OF THE PIGSKIN

University Foot Ball Team Looking For Foes They May Conquer. John Fisher, of the town of Center, who is now manager of the state university foot ball team, left the city this morning for Madison, where he will attend a meeting held for the purpose of arranging foot ball dates for the coming fall. A schedule was made out a short time ago, but trouble in the ranks resulted in a new series. Manager Fisher recently wrote Cornell for a date this fall, and received a very complimentary reply referring to the fact that the Cornell manager had looked up Wisconsin's record and had found that she was worthy of recognition. Owing to the fact that Cornell had already filled her dates, however, Wisconsin could not be accommodated this year.

GERMANY IS NEUTRAL

She Will Not Interfere With Dewey AT Manila.

ATTACK ON SPANISH SEABOARD NOT SERIOUSLY CONSIDERED.

Washington, June 25—Special—The renewed assurance from Berlin that Germany will maintain a strict neutrality during the pending conflict is received here with much satisfaction. It is intimated that the German naval commander at Manila, whose course has created so much apprehension, has been acting upon his own responsibility, and will be called to account by the minister of marine. It is believed that there will be no further ground for complaint on his account, and Admiral Dewey and Gen. Merritt will be permitted to pursue their own course relative to the government of the conquered territory.

No Attack on the Mainland.

Washington, June 25—Special—There is much talk here of a possible naval expedition against the seacoast cities of Spain. It is learned from those in the confidence of the administration that no such movement is contemplated at present. Every effort will be directed towards driving the Spaniards from Cuba, Porto Rico and the Philippines. These purposes having been accomplished it is believed Spain will sue for peace and will be granted any reasonable terms that may be demanded. Only in case of the enemy being obdurate will the cities on the mainland be attacked. This resort, it is believed, will not be necessary.

Shafter's Plans.

Washington, June 25—Special—It is admitted here today that Shafter's plans are substantially those outlined in these dispatches several days ago. He will occupy the heights around the city, and from there shell the city and Cervera's fleet. Sampson will also attack from the sea, and keep both the forts and fleet busy. It is believed that there can be no escape for Cervera, and the garrisons of the forts must either perish or surrender.

Cubans Are All Right.

Washington June 25—Special—The smallness of the Cuban force that has joined Shafter's army of invasion does not occasion anxiety here. It is known that the main body of the insurgents is located to the westward of Santiago and is so placed as to intercept reinforcements for the beleaguered city. There is constant communication between this force and Shafter, and the two armies are acting in unison.

Moving on Santiago.

Off Santiago, June 25—Special—Our troops are expected to storm the outside intrenchments east of Santiago tomorrow, and will be at the very gates of the city before sundown. A junction has been formed with six thousand Cubans. Light batteries are now being moved to Santiago.

Closing In on Santiago.

Off Santiago, June 25—Special—Lawton's advance guard is marching to Castilia, only four miles from Santiago, today. Linares' forces are intrenched there, and an early battle is expected. Sampson has moved his ships into position for the great final attack upon Santiago.

Shafter Don't Want Anything.

Chicago, June 25—Special—In reply to a dispatch from the war department Shafter telegraphed this afternoon that he did not want anything. Everything is getting along all right and the Spaniards are retreating.

Madrid Knows It.

Madrid June 25—Special—The government has received a dispatch announcing that fighting is in progress on land and sea near Santiago.

A Crisis Expected.

Madrid, June 25—Special—The cabinet will hold a session today to discuss the war program. The meeting is expected to result in a ministerial crisis.

PLAIN AND EMBROIDERED BATISTE GOWN FROM HARPER'S BAZAR
A French batiste dress for morning wear, of pale bluish color, is a simple model, whose beauty lies in its exquisite texture and quaint simplicity. The seven gored skirt, long and beautifully hung in the back, is made to fit the figure closely around the hips. The ruffles at the foot, slightly full, is of white batiste with large eyelets wrought with heavy silk in mauve; this also makes the ruffles on the broad bertha. The ruffles are headed by three narrow milline's folds of a paler tint of mauve. The open bodice discloses a chemise of turquoise blue, which with mauve, forms one of the favorite French color combinations. The vest is tucked at the neck, and gathered full below the yoke and into a narrow belt of the same material, which is a feature of summer fashions. The sleeves are tight and long, with needle-work tulle at the wrist, and the collar, is a high, straight band of the embroidery.

The proper cut of this gown can be obtained only from the cut paper patterns published by Harper's Bazar, where it appears.

Quantity of material for gown—Plain batiste, 8 yards; embroidered batiste, 2 1/2 yards; colored batiste for vest, 1 yard; batiste for folds, 2 yards.

NEW BRIDGES ARE NEEDED.

Contracts Will Shortly Be Let For Two Substantial Structures.

Three new iron bridges will be built in the county southeast of the city this season, and representatives from several iron firms throughout the country have been in Janesville of late concerning them. The largest one will be the 100 foot span to cross Turtle Creek in the town of Bradford, for which the contract was recently let. The other two are to cross ravines not far from Turtle Creek. One will cross the big ravine, one mile north of town, while the third will be one-half a mile farther up the ravine on the Janesville and Delavan road. Work has already been begun upon them.

WARM WEATHER RELIGION

The Theme Tomorrow Evening at Court Street Church.

Rev. W. A. Hall preaches tomorrow evening on a theme that is decidedly unique. It is "Shall We Be Religious During the Summer?" Summer is the time of relaxation. Take it easy; keep cool and have a good time; these are the watch words. With the many religion and religious duties are considered of at least secondary importance. Mr. Hall's theme is timely, and his consideration will doubtless be helpful. Good music is now a special feature in all the Court Street church services.

LIQUOR DEALERS CANNOT ENJOY WOODMEN BENEFITS.

Test Case From La Crosse Just Decided in the Supreme Court—Beginning of the State Turnfest At Sheboygan—A Large Attendance Promised.

La Crosse, Wis., June 25—The judgment of the circuit court, in the case of Locfler against the Modern Woodmen of America, has been affirmed by the supreme court. This is a test case and of more than local interest.

Mr. Locfler joined the Woodmen and afterward became interested in the Elliott-Locfler company, wholesale liquor dealers. Subsequently a law was passed by the order excluding certain classes of persons from becoming members, in wholesale liquor dealers. For some three years after this they continued to receive assessments from Mr. Locfler, and at about the end of that time refused him the rights and privileges of membership in the order.

Mr. Locfler then brought an equitable action, in the nature of a specific performance, to compel the order to recognize him as a member. The circuit court decided that he could not do this, and the supreme court has affirmed it.

The key used in these ceremonies is kept in the council chamber for use on such occasions.

Heinrich Huhn, of Milwaukee, president of the Turnabzirk Wisconsin responded the welcoming words. Refreshments were served to the hundreds present and the evening was spent in a social way.

Early yesterday morning the turners began to gather from near and far and as fast as they arrived were assigned to headquarters. The business part of the town is fairly surfeited with flags, bunting and evergreen.

State News in Brief

John E. Shirk, aged 40, formerly of Tomahawk, Wis., but for the past three years editor and proprietor of The Glenwood Tribune, committed suicide Friday afternoon during a fit of temporary insanity. He cut his throat from ear to ear with a common jackknife, completely severing the arteries.

The saloonkeepers of Milwaukee, who are opposed to paying \$1 more a barrel for their beer, are now talking of buying a brewery, or if that cannot be done, they will establish a depot and have beer shipped there in car lots. The latter proposition has been placed before many of the independent saloon men and the majority are in favor of it.

QUIT COMPLAINING AND GO TO WORK

Madison State Journal—One of the factional papers in this state after complaining of various things, says: "What is to become of us?" Well, if you keep on in the way you are going now, it is hard to tell. Political soreheads, kickers and factionists, usually drift sooner or later into the opposition party. If you want to know "what to do be saved," we can tell you. Stop this persistent tirade against members of our own party. Stop abusing officers who are conscientiously performing their duties. Stop assisting disturbers to pay off their grudges or gratify their ambitions. Go to work earnestly and honestly and try to secure the adoption of such policies as you believe ought to be adopted; labor diligently to serve your friends, by presenting their claims and qualifications; proceed upon the assumption that all other members of the party have the same rights that you have, and are as honest in their intentions as you pretend to be; and when nominations are fairly made, take hold and give your best efforts towards securing the election of party candidates and you will come out all right. By this course you will win the respect of both your friends and opponents, inspire the confidence of the public in your sincerity and sagacity, and secure, as you will deserve, recognition and reward. It takes many men to form a great and successful political party. They can-

not be expected to agree upon all points of principle and policy, nor as to whom are the most deserving and available candidates for office. But to support one man or set of men, it is not necessary to traduce other members of the party, who may aspire to positions or leadership.

JOHN NICHOLS DIED THIS AFTERNOON

PIONEER AND DISTINGUISHED ATTORNEY AT LAW.

Old Age and a Complication of Diseases Caused His Demise—Has Been Feeling Well of Late In Spite of Advanced Years—Was Well Posted Scholar.

John Nichols, aged 88 years, died at 1:45 o'clock this afternoon at the home of his daughter, Mrs. John Manning, No. 5 Milton avenue. The cause of his demise was a complication of diseases brought on by old age. By the death of John Nichols the county of Rock loses one of its early and most respected settlers. Of late he has been in failing health but at no time would he admit that he was ill and till a few days ago could daily be seen taking his morning walks as active and spry as a man of fifty.

Came Early to Janesville
In 1830 Mr. Nichols graduated with high honors from the law school at Williams college in New York state, and on July 3, 1847, came west and settled in Janesville. Soon after reaching this city he entered into politics, and was elected clerk of the Rock county circuit court, and for a number of years held that position. After leaving politics he formed a law partnership with the late A. O. Bates, of this city, and for a number of years they conducted an office in this city under the name of Bates & Nichols. Of late years Mr. Nichols has practiced law in this city and only last year abandoned it. For a man of his years his vitality was wonderful.

As a Greek scholar it is doubtful if any one in this section was better posted than he, and even recently he could be seen perusing books that dealt with this language. As a lawyer he obtained a reputation in his early days that one might well feel proud of. In this city he was loved and esteemed by a large circle of warm friends.

One daughter, Mrs. John Manning, of this city, is left to mourn his death. From the home, Monday afternoon at 4 o'clock, services will be held, and the interment will be in Oak Hill.

Bar Meeting
A meeting of the Rock County Bar Association will be held Monday morning at 10 o'clock at the circuit court chambers to take action relative to the death of John Nichols.
Wm. Smith, President.

SLAIN ON HIS ENGINE.

C. & Q. Train Is Held Up—Fireman George Savage Escapes.

Whitehall, Ill., June 25.—Train No. 49, the north-bound express on the Chicago, Burlington & Quincy railroad, which left St. Louis at 7:50 this evening, was delayed one mile north of Whitehall at 10:40 Friday night by an attempted hold-up, and Engineer Fred Dempsey was shot and killed.

As the train stopped at the Chicago & Alton crossing a masked man climbed over the tender with a leveled revolver. Fireman George Savage jumped from the engine just as the robber fired, the bullet taking effect in the engineer's side. The robber then sprang from the engine and fled.

It is thought the robber had confederates and that they took alarm from the shots and ran away. Engineer Dempsey was carried into the baggage car unconscious, and died within twenty minutes. He lived at Beardstown, Ill., and had been on the Chicago, Burlington & Quincy road ten years. Bloodhounds were immediately put upon the trail of the robber and a posse is searching the country for him.

WASHOUTS BLOCKED RAILROAD TRAINS

MIDNIGHT VESTIBULE WAS NINE HOURS LATE.

Not a Single Train On the C. & N. W. Railroad Pulled In Here During the Night—Railroad Companies Estimate Extensive Damage—Washouts On All Sides.

On account of the havoc raised by the severe storm of last evening, not a train from Chicago pulled into the city from 9:50 last evening till 10:15 this morning. After making several attempts to get here the paper train due here at 6:30 on the Chicago & Northwestern road pulled into the city at 10:15 o'clock, coming via Sharon.

On reaching Belvidere this morning Conductor Carpenter was notified that one of the bridges near Roscoe was badly damaged by the flood, which compelled him to take his train back to Harvard, where it was held for some time awaiting orders.

The vestibule was late. The midnight vestibule due in Janesville at 12:15 encountered severe trouble soon after leaving Chicago. On reaching Barrington she found herself in the midst of one of the severest storms in years. As Barrington orders were received to await further instructions. At Harvard there was a delay of several hours. The train arrived here at 11:40.

Little Trouble North. North of this city but little trouble was encountered. The morning St. Paul vestibule due here at 6:25 pulled in a half hour behind time. The accommodation from Watertown experienced no trouble on the way down this morning arriving on time. Between this city and Beloit as well as between here and Harvard there seems to be no trouble, the damaged tracks lying between Beloit and Roscoe and Harvard and Chicago.

On the Chicago, Milwaukee & St. Paul road washouts were not numerous in this section. When the storm was at its worst last evening crews on hand cars were sent out of this city to inspect the track between here and Hanover. They found it in good condition. In the vicinity of Platteville bad washouts raised havoc with travel. The morning Mineral Point-Milwaukee passenger due here at 9:25 was several hours late and the company was obliged to send a special train out to make connections at Milton for Milwaukee.

The City Felt It. The storm here in the city set in at a merry rate and kept up for about four hours. Electricity raised havoc throughout the city and entire country. The Wisconsin Telephone Company found several of their wires in a damaged condition this morning. The Western Union and the Postal Telegraph experienced but little trouble.

At the west side engine house City Electrician Henry C. Klein was kept on the move most of the night in caring for the city electrical apparatus. Struck by Lightning. An alarm of fire was turned in at 1:30 o'clock this morning from box 54, Jefferson and North streets, calling the department to the premises of George O. McLean, 601 Galena street. It is thought that lightning struck the structure which was only partly consumed. The loss will not exceed \$100.

The residence of Emery T. Burdick, 333 St. Mary's avenue, was struck during the storm. Mrs. Burdick was at home alone. Little damage was done.

Shortly after 9 o'clock a great ball of lightning struck the pavement in South Main street in front of J. M. Hostwick's store, and exploded with a terrific report, the fire flying in every direction. It was the largest cannon cracker seen in Janesville this year. Little damage was done by the wind, which was not severe.

DRIVERS ARE TOO CARELESS

Steps Have Been Taken to Prevent Their Running Depot Lawn. The spacious lawn that surrounds the new Chicago & Northwestern passenger depot is now well protected from the numerous vehicles that daily use the drivings that surround the station. When the road beds were first completed careless drivers paid little attention to them and at times their vehicles would run on the edge of the lawn, thus cutting away the edges. The company have now remedied this evil. From the north recently arrived several large cowboys, some of which weighed 500 pounds and at different intervals these stones have been placed along the edge of the lawn so as to sheer off all encroaching wheels.

They Are Coming Our Way. Up Milton avenue and along to Clear Lake. The Oak Grove Hotel, north side, is the place to spend Sunday. Good music and a good dinner. Lunch on 12 to 3. Dinner 5 to 7. Music by horn quartette and male vocal quartette. Dinner 35 cents. Cool, shady grove. Try it.

It takes three hours for Chicago evening papers to get to Janesville. It takes less than one second for the telegraph to cover that distance. The Janesville Gazette receives full press association dispatches, and the news in three hours, later than that of Chicago and Milwaukee evening papers sold in this part of the state.

THAT groceries are cheaper in Janesville than in surrounding cities is evidenced from the fact that Rockford's largest grocery house is advertising Munson's fruit jars at 60, 70 and 85 cents per dozen against Sanborn's prices of 50, 60 and 75 cents for the same goods. This is only one item in which Sanborn undersells most grocery dealers.

EVERY man should attend the Y. M. O. A. meeting tomorrow at 3 p. m. Captain Edward Ruger will lead. The hour will be a profitable one. The singing will be fine. There will be a special male quartette. All preparations for this meeting are made with a view to the comfort and pleasure of men, and the example should be set by those interested that one hour Sunday should be spent in the interest of the spiritual welfare of our men.

LIGHTNING FIRES LANGWORTHY BARN

HUNGRY FLAMES CONSUME SIX VALUABLE HORSES.

Several Tons of Hay and Much Grain Burned—Loss Will Reach Three Thousand—Several Cows Killed Throughout the Country—Heavy Damage All Around.

During the height of the storm last evening between 11 and 12 o'clock, lightning struck a large barn on the Elmer Langworthy farm in the town of Fulton, and in a short time two large barns containing several tons of hay, one thousand bushels of oats, and several sets of harness were destroyed. All efforts to remove six valuable horses proved of no avail, and they were burned to death, as were also several hogs. The loss will be in the neighborhood of \$3,000, with between \$250 and \$300 insurance in the Harmony Mutual Insurance company. The Alarm Given.

Soon after the lightning struck fire was discovered by farm hands, who gave the alarm. The neighbors were attracted by the blaze. They responded in goodly numbers and did heroic work. The men at first gave their time to saving the live stock in the barn where the carriages and fine horses were kept. After all these were removed to places of safety an effort was made to rescue six horses that were in another portion of the barn. The flames by this time had well enveloped the greater portion of the upper part of the structure where the hay and grain was kept. Dense volumes of smoke poured through every portion of the barn, and when the men reached the frozen animals they refused to stir, and were consumed in their stalls. Several hogs that were confined in nearby pens were burned to death.

Saved the Dwelling. The men then gave their attention towards saving the dwelling which stood but a few yards away and which was barely saved.

Minor Losses. On the A. Bradt farm in the town of Bradford, a valuable cow was killed by electricity.

A bolt of lightning struck and killed a horse on the E. Ransom farm in the town of Bradford.

On the Bush Inman farm in the town of Bradford, four valuable cows were killed by lightning.

On the Walter Britt place in the town of Janesville, a tobacco shed sheltering two cows, was struck by lightning, and both bovines were killed. The shed was only partly wrecked.

Young Man Killed. Platteville, Wis., June 25.—[Special]—An electric storm prevailed last night such as has not occurred in southern Wisconsin for years. The Northwestern and St. Paul tracks were washed out. The house of Harry Van Atta, at Cornella, seven miles southwest of this city, was struck and shattered by lightning and his eighteen year old son was killed.

GRAND COLUMBIAN FETE

Arrangements for the Entertainment Are About Completed. The Columbian fete to be given by home talent under the auspices of Christ church guild on Thursday evening next, promises to be an entertainment well worth seeing. Three hundred persons will participate, and these have been thoroughly drilled by Mrs. M. G. Matthews. The sleeping, fairies are awakened by their queen, and a skirt dance follows. American Indians are brought in, who are greatly alarmed by sights and sounds to which they have not been accustomed. Then comes Columbus, who is hospitably received by the Indians. The Puritans appear on the scene singing as they march to church. A minuet is danced, followed by the raising of the American flag. Then Cuba appears and asks Uncle Sam's aid to free her from the Spanish yoke. Tableau follow, all of them of a patriotic character, and the fairies participate in many fancy dances, made brilliant by the hues of colored lights.

The curtain will fall but once during the entertainment. There will be two solos and four choruses. The male quartet will take part as well as one hundred children and members of the G. A. R., Christ Church Cadets and many others. The spectacle promises to be the grandest seen in Janesville in years, and the opera house will doubtless be packed.

FACTS WORTH KNOWING

What Piano Purchasers Should Think About in Selecting an Instrument.

It is a fact that when you select a piano that is valued at less than \$300 you are getting an instrument that has had the quality dropped from some part to make up the difference in price. The city is being flooded with cheap pianos continually, pianos in name only. The inside mechanism merely thrown together and the outside imitation covered up with a glossy show of paint and varnish, made by irresponsible factories and concerns who manufacture them as a side line to their regular goods. Such pianos are dear to the purchaser at any price. You don't fully realize what you have bought in one of these instruments until time which is usually very short, tells its tale of cheapness. You may have received a guarantee as to its worth but what matters that if the manufacturers have gone out of business or proved to be rather mythical. The art of piano building cannot be learned in a day or week, a fact that is proven every day in cheap pianos. Such makes as the Scherer, Steger and Sleges, pianos that have been on the market for years and have built a reputation for tone, action and durability are to be relied upon. The Janesville Music Co., opposite the postoffice, handle these instruments. They selected them from many good makes because they thought they were better than the best. With one of these pianos in the house the purchaser has the satisfaction of knowing that he has an instrument as near perfection as knowledge and money can make it. The Janesville Music Co. has placed a number of these instruments in Janesville homes, and a few days ago sold one to Capt. Alex. Buchholz to be used at Crystal Springs Park up the river. There is no economy in purchasing a cheap piano, because the man who made the piano at a cheap price knows better where to scrimp on quality to make up for the price than you will know. When you get ready to buy a piano come and talk with us. We make you as good figures and as convenient terms as any dealer, and you will have the satisfaction of knowing that you have an instrument that is perfect in every way.

The People of Janesville Have the Rare Opportunity of Consulting Prof. Leonard, Chicago's Famous Life Reader, and Confidential Adviser.

PROFESSOR LEONARD is so well known throughout this country as a man of marvelous powers that it is unnecessary to recount minutely the wonders he is able to perform. Suffice it to say, that he can tell you your whole life's history, and gives the names, dates, facts and figures in connection with any of your past, present or future affairs; thus, proving himself all that he claims to be. He will give you more valuable information, and sound, reliable advice, than any Clairvoyant that has ever visited your city.

ALL DEPENDS ON CAMARA.

American Squadron Likely to Be Sent to Spain.

DEWEY CAN PROTECT HIMSELF.

If the Spanish Admiral Takes His Fleet Through the Suez Canal Our Ships Will at Once Go to Bombard Spanish Cities.

Washington, June 25.—If Admiral Camara takes the Cadiz fleet through the Suez canal an American squadron will be sent flying across the Atlantic to bombard the coast cities of Spain.

This statement was made on good authority after the state department had received official advice that the Spanish ships were steaming eastward through the Mediterranean.

There is no doubt that Dewey can take care of himself against this Cadiz fleet, since his own squadron will be reinforced by ironclads before Camara's ships sight the Bay of Manila, and he will have the shore batteries with him instead of against him in the struggle.

But it has been concluded by the administration that nothing save the most severe measures will suffice to bring the Spanish people to a realizing sense of the hopelessness of the continuance of the present war, and even kindness, it is held, will dictate such a blow as that it is proposed to administer if the Spanish persist in this last project.

After the fall of Santiago and the capture or destruction of Cervora's squadron Sampson will have an abundance of vessels to spare for the task set for him. Probably he will constitute the attacking fleet in two squadrons, the first a flying squadron, to be composed of the swiftest vessels of the fleet, such as the Columbia, Minneapolis, Harvard, Yale, St. Louis, St. Paul, New Orleans and such craft. This will be followed under another command, either Sampson or Schley, by the battleships, which Capt. Clark's experience with the Oregon has shown can easily be counted on for the voyage across the Atlantic.

With the Iowa, Oregon, Indiana, Massachusetts and Texas, all battleships, supplementing the New York and Brooklyn, armored cruisers, and the less powerful but speedy vessels of the flying squadron, the Spanish coast would be speedily swept clear of all commerce, all Spanish shipping would be destroyed, and some of the best ports blockaded or bombarded.

Presence of the Troops Restores Quiet for a Time at Least.

Oshkosh, Wis., June 25.—The striking woodworkers have been overawed by the military, and have kept the peace, but have maintained a sullen, dogged and vigilant attitude, and the situation is one of grave concern.

The secretary of war is requested to make an investigation of the matter.
